PROFESSIONAL SUMMARY

Machine Learning intern candidate with hands-on experience building end-to-end ML pipelines — feature engineering, model benchmarking, and production deployment. Shipped a Streamlit app achieving **85%+ accuracy** on clinical data after **lifting recall 12%** through SMOTE balancing and tuning. Also skilled in SQL and Power BI for the data-to-decision side of ML work. Pursuing M.Sc. Data Science & Big Data Analytics at MIT WPU.

TECHNICAL SKILLS

Machine Learning & Programming: Python, Pandas, NumPy, Scikit-learn, Machine Learning, NLP, Streamlit
Data & Databases: SQL (MySQL), ETL, EDA, Data Preprocessing, Feature Engineering, Customer Segmentation
BI & Reporting: Power BI, DAX, Power Query, Data Modeling, KPI Dashboards
Tools & Platforms: Git, GitHub, Jupyter Notebook, AWS Cloud Foundations, HTML, CSS

PROJECTS

Diabetes Prediction System | Python · Scikit-learn · Streamlit

- Built an end-to-end ML pipeline; SMOTE balancing and feature scaling lifted model recall by **12%**.
- Benchmarked 4 classifiers (Logistic Regression, SVM, Random Forest, KNN) across accuracy, precision, recall, and ROC-AUC.
- Reached **85%+ accuracy** on a clinical dataset through systematic hyperparameter tuning and cross-validation.
- Deployed a production-ready Streamlit app for real-time diabetes risk prediction.

Sales Data Analysis Dashboard | Power BI · DAX · SQL

- Built an interactive Power BI dashboard with **15+ DAX measures** tracking sales, revenue, profitability, and customer behavior across product lines.
- Automated Power Query ETL pipelines, replacing manual reporting with real-time data refresh.
- Segmented customers and surfaced **3 high-growth product categories** that informed strategic decisions.

EXPERIENCE

Web Developer Intern | Skill Vertex · Remote, Karnataka

Oct 2021 – Nov 2021

- Designed and shipped a full eCommerce site — product listings, search, secure checkout — in **6 weeks**.
- Implemented on-page SEO (meta tags, structured data, keyword optimization), lifting organic search discoverability by **20%**.

EDUCATION & CERTIFICATIONS

M.Sc. Data Science & Big Data Analytics — MIT World Peace University, Pune

July 2025 – Present

B.Tech, Computer Science & Engineering — Indus Institute of Technology, Ahmedabad | CGPA: 8.99/10

July 2020 – April 2024

AWS Academy Cloud Foundations — Amazon Web Services

Sep 2023

Machine Learning using Python — Indus University, Ahmedabad

Dec 2021
